Re: Bonding Stipulation on Borrow Material

Dear Susan:

Per our phone conversation on March 11, 1986, I would request that the sample analysis for Borrow material, which is due within 90 days of Reclamation Bonding Approval, be extended to the 1st of June, 1986. Winter weather and muddy conditions in and around the mine make it nearly impossible to get a good composite sample of the tailings area soil.

If you have any questions concerning this request, please give me a call. I will be awaiting your response.

Sincerely,

Bruce Gilbert
Environmental Supervisor
